Instant Synthesizer
For Apple IIGS **\$49.95**
Zany Golf
For IBM, PS/2, Apple II, IIGS, Amiga, Atari ST **\$29.95**

All items listed for the Commodore 64 work on the Commodore 128 in the 64 mode unless otherwise specified. Commodore 128 dedicated programs almost always require a 1571 disk drive and an 80-Column monitor. Titles listed in slash format (i.e. 64/Atari) mean both versions are in the same box. Most IBM programs require a minimum of 256K and a graphics card, and almost all IBM game and educational programs require color graphics and color monitor. Sorry, but we do not as of yet stock IBM programs in the 3.5" format unless they are part of a double-pack which includes the standard 5.25" disk. Most Apple II programs will work on the Apple IIGS only if you have the 5.25-inch external disk drive. Most Atari ST programs work on both the 520 and 1040 ST unless otherwise indicated. Most Amiga programs work on the Amiga 500, 1000, 2000 with 512K minimum unless otherwise indicated. All Apple II programs require a minimum of 64K unless otherwise indicated. The majority of games require at least one joystick. To avoid annoying mis-shipments, please state plainly the manufacturer's name, the name of the product you want as listed in this catalog, and the format you need.

"Mystery Girl" is the first package of all-new material to be recorded by Rock and Roll Hall Of Fame member Roy Orbison in ten years. The album was completed shortly before his untimely death in December 1988. "Mystery Girl" follows Virgin's 1987 release of "In Dreams: The Greatest Hits," the set of 19 classic Orbison songs, all specially re-recorded.

• Roy Orbison: In Dreams (ATL 90604) 13.99 CD 9.99 2 LP/Cassette Set

Sony Cassette Decks and Turntables

Discover A Whole New World Of Total Listening Enjoyment With Sony's Advanced Recording Technology

Sony TC-FX160 High Quality Performance At A Breakthrough Price

• Enjoy the finest in low-noise recording and playback with improved signal-to-noise performance by as much as 20 db with Dolby B and C • For added operating ease the TC-FX160's tape transport is activated with a soft touch • Direct coupled electronics for reduced distortion • Long wearing high density tape heads • 5-segment LED meters for precise recording level control

Sale Price **\$99⁹⁵** Retail \$130 (SON TCFX160)

Sony PS-LX430

Fully Automatic Belt Drive Performance

• The belt driven record platter is powered by a shock-mounted DC servo motor for accurate speed control • Anti-resonant base construction • Automatic tonearm set down & liftoff for operating ease • Auto disc size selection • Remote capable with Sony remote control receivers

Sale Price **\$149⁹⁵** Retail \$180 (SON PS LX430)

Sony TC-W300 Affordable High Speed Dubbing with Dolby Noise Reduction

• Now you can record tapes at twice the normal speed and enjoy the low-noise performance of Dolby B and C noise reduction • Direct coupled electronics • High quality recording and playback is assured by the use of long-wearing, high density heads. Two motor design for higher reliability than regular double decks

Sale Price **\$169⁹⁵** Retail \$210 (SON TCW300)

Sony TC-WR900 Dual Deck Recording with Top-Of-The-Line Performance

• High speed dubbing at twice normal speed and Super Bias technology assure you of high quality sound • Double auto reverse for recording and playback • Twin Dolby B and C noise reduction circuits allow converting from one system to another during dubbing • Laser Amorphous tape heads exhibit superior linearity for studio quality results • Automatic music sensor • Full logic operation

Sale Price **\$599⁹⁵** Retail \$700 (SON TCWR900)

Sony PS-LX520B

Linear Tracking Direct Drive At A Budget Price

• Lets you play records with the same straight-line tracking of a record cutting lathe • Quartz DC drive drive couples the platter directly to a quartz servo motor for ultra low wow & flutter performance • Feather touch front panel controls • Remote control capability when used with a Sony remote control receiver

Sale Price **\$229⁹⁵** Retail \$270 (SON PS LX520B)

Sony TC-WR700 High Speed Editing with Full Function Remote Capability

• Time-saving high speed cassette dubbing with the benefits of Dolby B and C noise reduction • Relay play sequentially plays both sides of tape A and then both sides of tape B • Automatic music sensor lets you quickly rewind to the beginning of the current selection...or skip ahead to the next • Feather touch full logic operation assures you of careful tape handling • High density long wearing tape heads

Sale Price **\$279⁹⁵** Retail \$330 (SON TCWR700)

Sony TC-RX400 High Quality Cassette Recording with Auto Reverse Convenience

• Dolby B and C noise reduction improves signal-to-noise ratio by up to 20dB • Feather touch full-logic control • Direct coupled electronics • Auto reverse for continuous listening of your favorite music • Left/Right microphone inputs lets you do live recordings in stereo • High density long-wearing tape heads • High tech black finish

Sale Price **\$199⁹⁵** Retail \$240 (SON TC RX400)

Sony PS-FL711

Linear Tracking Accuracy with Direct Drive Dependability

• Straight line tracking ensures better performance and longer record life • Quartz DC direct drive delivers precise speed control and ultra-low wow & flutter performance • Convenient front load slide out drawer is enclosed in an attractive low-profile cabinet for added record protection • Front panel fully automatic control • P-Mount tonearm • Anti resonant base

Sale Price **\$299⁹⁵** Retail \$350 (SON PSFL711B)
